

Approved Changes to the Faculty Handbook to replace the Teaching Enhancement Workshop with the Initium program:

Under section A6.e, Appointed Committees, delete the description of the Teaching Enhancement Workshop Committee.

Under section C, Professional Obligations of Faculty, part 5, Professional Growth, add a new number b1:

1. The Initium program for new faculty, which will include an August workshop, Fall and Spring semester seminars, a Spring retreat, and a mentoring component. Participation by all new full-time faculty is expected and some components will be open to participation by continuing faculty.

Also delete the current number b8 on Teaching Consultants (not a term still in use as such) and b9 on the Teaching Enhancement Workshop. In the current number b6, which will become b7, delete “The Faculty Colloquium on Classic Texts and other,” since this has not happened in a decade, and simply begin with “Colloquium series and short-term workshops...”
