Additional details

Homepage

- **Body content** — General information for all audiences, modified from current [About](#) page
- **Calendar feed of upcoming events** — Individual events hosted in Localist (calendar.hope.edu), to include photos, bios, promotional material, video, etc. This will effectively replace writer-specific or event-specific subpages
- **Previous visiting writers** — Housed on homepage in accordion (see [Concerts page](#) for an example); could be sorted in a single dropdown or alphabetical groupings (e.g., A–G, H–M, etc.)
- **Blog feed** — Posts automatically fed from blog to homepage, e.g., “Introducing” and “Recap” (see [Admissions page](#) for an example); transition current blog function to a blog on the Hope network; alternatively, Localist events could replace the function of these blog posts
- **Contact information** — Left-hand sidebar, to replace the need for a “contact us” page; could list any existing and appropriate department (English, ECO, etc.); includes JRVWS social media links

Note: Can also include calls to action, links to full JRVWS schedule on Localist, Jack Ridl’s website, English Department website, photo gallery, etc.

About

- **Body content** — Restate JRVWS positioning, then use content from current History page
 - Interview with Jack Ridl subpage — Reproduce current content
 - Tom Andrews Memorial Reading subpage (?) — Reproduce current content

Get Involved

- **Body content** — A single page with two subheads (maybe more if there are additional ways for other audiences to get involved):
 - Current Hope students — Content to come from current page
 - Community schools and libraries — Content to come from current page
