

# OCCIDENTAL COLLEGE'S 1 MW SOLAR ARRAY

THE CHALLENGE THAT BROUGHT OUT THE  
BEST OF A LIBERAL ARTS COLLEGE

In this lecture Daniel Snowden-Ifft, Professor of Physics at Occidental, will discuss the challenges Occidental faced in the 4+ year effort to bring the array from conception to "first light." In particular he will highlight why liberal arts colleges are uniquely positioned to contribute to the challenge of climate change.

THURSDAY, NOVEMBER 3  
7:00 - 8:30 PM

HOPE COLLEGE, GRAVES HALL
